

JIGNESH PATEL

Android & Flutter Developer

Ahmedabad, Gujarat | +91 85113 17222 | pateljigs3181@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Android & Flutter Developer with 3+ years of experience in both Android (Kotlin) and Flutter development, specializing in building scalable, high-performance mobile applications. Strong expertise in Firebase, REST APIs, MVVM/Clean Architecture, and Google Play Store deployment. Actively integrating AI-powered tools (Claude, Gemini, Codex, Cursor AI) into development workflows, reducing team delivery time by ~20%. Currently focused on AI-driven mobile solutions using FlutterFlow and multi-agent automation.

TECHNICAL SKILLS

Mobile	Kotlin, Android SDK, Flutter, Dart, FlutterFlow
Architecture	MVVM, Clean Architecture, Dependency Injection
State Mgmt	Provider, GetX, BLoC
Backend	REST APIs, JSON Parsing, Firebase (Auth, Firestore, FCM, Analytics)
AI & Tools	Claude (Anthropic), Gemini, Codex (OpenAI), Cursor AI, GitHub Copilot, Antigravity AI
DevOps	Git, GitHub, CI/CD basics, Play Store deployment, App lifecycle management
IDE & Tools	Android Studio, VS Code, Postman

PROFESSIONAL EXPERIENCE

Android & Flutter Developer — Hyperlink Infosystem

Jan 2023 – Apr 2025

Ahmedabad, Gujarat

- Architected and delivered 6+ production mobile apps in Kotlin and Flutter, managing end-to-end lifecycle from design to Play Store release
- Integrated Firebase services (Authentication, Firestore, FCM push notifications, Analytics) across multiple applications
- Engineered REST API integrations with real-time data features, improving app responsiveness and scalability
- Embedded AI tools (Claude, Gemini, Cursor AI, Codex, Antigravity AI) into mobile dev workflows for code generation, debugging, and automation — reducing team development time by ~20%
- Leveraged multi-agent AI workflows for rapid feature development, automated testing assistance, and performance tuning
- Managed full Google Play Store release cycles — versioning, staged rollouts, and post-release monitoring
- Mentored junior developers on best practices for architecture, code quality, and debugging

Android & Flutter Developer — Vedanco Group

May 2025 – Present

Ahmedabad, Gujarat

KEY PROJECTS

Stock Trading App (Flutter • Firebase • REST API • GetX)

- Delivered a full-featured trading platform with stock buying/selling, IPO investments, and real-time portfolio tracking
- Integrated KYC verification workflow and PCI-compliant payment gateway for secure transactions
- Implemented real-time price updates and push notifications, improving user engagement by ~35%

Property Investment Platform (Flutter • Firestore • REST API)

- Built a fractional real estate investment app enabling users to invest in properties with secure payment processing

- Implemented portfolio management dashboard with live investment tracking and transaction history

Lea Training App *(Flutter • Firebase Auth • Firestore)*

- Developed a secure legal education platform with role-based restricted access and content protection
- Integrated offline-capable content delivery for uninterrupted learning experience

Gujarat Short News Platform *(Android (Kotlin) • Offline Support • In-App Messaging)*

- Built a Kotlin-based short news app for Gujarat with full offline support, enabling users to read news without an active internet connection
- Integrated in-app messaging system for real-time communication between users and editors
- Implemented dynamic theme engine driven by admin-configured color values, allowing real-time app-wide branding updates without a release

ServiceHub *(Android (Kotlin) • MVVM • Firebase)*

- Built a service booking platform with real-time provider management and scheduling system
- Implemented GPS-based service discovery and in-app chat between users and providers

FinConnect *(Android (Kotlin) • REST APIs • Firebase)*

- Developed a finance-focused social networking platform with real-time API data feeds
- Integrated advanced notification system and dynamic news feed for market updates

EDUCATION

Bachelor of Engineering — Information Technology

U.V. Patel College of Engineering, Mehsana

2019 – 2023
